Warminster Amateur Radio Club

September 2026

o Next meeting September 3rd - DX Tony W3FLH

President's Message

• Upcoming Programs:

- o DX - September Tony W3FLH
- o October - Monitoring the military DanK3NXX
- o November - Ray D-Star **KA3TRU**

HamClubOnline: If you have not already done so, please log onto <https://www.hamclubonline.com/>

o Volunteers:

We are looking for a vice president: Time commitment - about 2-4 hours or more per week. There is also some behind-the-scenes work as well helping securing presentations for the club meetings.

Our club cannot be successful, function, or grow without your help and input. There are a number of opportunities to volunteer within our club:

- ✦ Board of Directors President, Vice President, Treasurer, Secretary, Directors (2)
- ✦ License Class Instructor,
- ✦ Field Day,
- ✦ Good and Welfare
- ✦ Public Service,
- ✦ Elmer, Subject Matter Expert,
- ✦ Ham Fest,
- ✦ Holiday Dinner,
- ✦ Club Auction,
- ✦ Meeting Presentations,
- ✦ Become an ARRL **Volunteer Examiner (VE)** - <https://www.arrl.org/become-an-arrl-ve>
- ✦ and many more.
- ✦ If you are interested in helping with one of these activities please contact a member of the board, many people together make for a lighter load and more enjoyable experience.
- ✦ **VE Session:** There is **NO** VE session in August, the next session will be the last Monday in September (9/29)

Surveys:

Please check out the ongoing polls which will be closing over the next few weeks

- ✦ 2026 Warminster Ham Of The Year Open until 2026-09-23 23:59 EDT
- ✦ Trip to Battleship New Jersey Open until 2026-09-01 23:59 EDT

FOR SALE

Astron AS-50 M power supply for sale \$400.00. Sells for \$592.00 at DX Engineering. Box opened to verify contents only. This was given to me by the XYL of a silent key and I have no use for it.

Herb, KB3VMN

(Continued from page 1)

- ✦ 2026 Holiday Dinner Open until 2026-09-02 23:59 EDT
- ✦ If WARC sponsored a National Park on the Air Day as a club activity, would you participate?

- **Technician License Classes:**

A free, weekly, live, Amateur Radio Technician Class Licensing course on Zoom will begin on Thursday, Sept 3, and will run through Thursday, October 15 (7 sessions). The three-hour sessions will start at 6:30 PM Eastern Time. These are the classes that we have been holding for years sponsored by the National Electronics. Those wishing to sign up should email Rol Anders, K3RA roland.anders@comcast.net. It has received good reviews.

There is also a [Beginner workshop: Ham Radio – TECHNICIAN](#) - This ONLINE ham radio class will get you ready to take the TECHNICIAN license exam, the FIRST of three certification levels. For adults, students 4th grade and up, and home-school. FREE for students. This **ONLINE** ham radio class will get you ready to take the **TECHNICIAN license exam**, the **FIRST of three** certification levels. Geared toward adults, but suitable for junior high, high school, and home-school students offered by New England Sci-Tech club. There is a \$55 cost associated with the class.

Link is - [Ham Radio – TECHNICIAN \(Beginner\) - New England Sci-Tech Inc](#)

There are two upcoming sessions

[Four Sundays SEP 13, 20, 27, Oct 4, 2026, 6:00-9:00 pm Eastern \(Zoom only\)](#)
[Four Sundays OCT 18, 25, Nov 1, 8, 2026, 6:00-9:00 pm Eastern \(Zoom only\)](#) (skipping 4 weeks in December for a [General course](#) - check it out!)

This is a FULL course taught live via Zoom by a 40-yr veteran teacher, Bob Phinney, not a video or discussion group. You will learn much more than with other methods. This class will be taught using the new technician question pool.

Dave, K3FTD

Meeting Minutes for August 6th

Call to order at 1930 Dave McGowan K3FTD presiding.

Introductions; Attendance and introductions 25

The club welcomed new members John Houck W3ABH, Matt Wilson KD3DQE, and Rich Enright KB3NRL

Minutes from last Club Meeting: Accepted as presented- motion carried.

Committee Reports:

- **Treasurer's Report:** Tom K3PLA

- O Reports sent out via GroupsIO; also available at the meeting for anyone wishing to review.
- O The 2026-27 Budget was presented. A survey will be sent out as required by the club by-laws, for membership approval of the annual budget.

- **Public Service:** George N3HBT –

- O Next event is Hole in One Golf Outing in October.
- O Also, the Annual Covered Bridges Ride will be held in Tinicum Park in October.
- O More information closer to the event dates.

- **VE Testing:** - George N3HBT

- O July 1st - 1 person took Technician and passed.

(Continued on page 3)

(Continued from page 2)

O No session in August.

- **Club Station Status: George N3HBT**

O Station is available for use ½ hour before club meetings.

O Special Thank You to Brandon for helping with set up of a new pc.

- **Question Time:**

Are there any 6 Meter Nets in the area?

Response: Mobile Sixers (Delaware) and Pack Rats on Monday nights.

Old Business:

Herb wanted to Thank all of the hams (and their significant others) for the work put into making this years Field Day a success. He will have a full report when he returns from his travels.

Club is still in need of a Vice President. This position primarily arranges speakers and topics for club meetings, and may occasionally fill in for the President when he/she is not able to make a meeting.

New Business:

It was suggested that a link to a YouTube video be added to the club website. The video represents a walk through of the clubs Hamfest. It was suggested that Kathy Acker be contacted to add the link.

Upcoming Hamfests: August 9 Valley Forge, August 29 Reading

SK Estate Sale – see GroupsIO

Holiday Dinner in December – survey is going out to hear members' preferences. Also, Ham of the Year nominations.

A survey is going out to assess interest in a trip to the Battleship New Jersey.

Business meeting adjourned at 2005

There was no speaker this evening.

Talking to a Satellite Over Norway

An interesting experiment took place last week in the skies over Oslo, Norway.

Amateur radio operators from the Oslo Group of the Norwegian Radio Relay League (NRRL), using an experimental satellite and homebrew ham equipment, successfully reprogrammed the satellite to respond to voice control.

On July 27, 2026, a verbal command, sent via a 23-centimeter signal from the roof of the Oslo Group's club station, was received, transcribed, and executed on board the OPS-SAT PRETTY satellite. The satellite then activated the game DOOM in response, and downloaded images of the game as confirmation. Voice control of a satellite was a reality, performed by radio amateurs in the Oslo Group!

The spacecraft is operated by Graz University of Technology in Austria and the experimentation is coordinated by the European Space Agency's European Space Operations Centre (ESOC) in Darmstadt, Germany.

The OPS-SAT PRETTY is a 3U CubeSat (10 x 10 x 34 cm) with a reconfigurable processing platform that allows a wide range of custom software and firmware experiments, and is tightly connected to an onboard software defined receiver (SDR).

Everyone involved in the experiment agreed that amateur radio infrastructure can support technically meaningful spacecraft exper-

(Continued on page 4)

iments when RF design, signal processing, craft software, and disciplined operations are treated as one system.

Can the satellite be programed to talk back in an AI human voice?

“For this satellite, the Satellite Experimental Processing Platform (SEPP) where the experiments run, is connected to an SDR, receive only,” said team member Eskil Hadland, LB6AJ. “As far as I know, the TMTC (Telemetry and Telecommand) is outside of the SEPP. So I do not believe this satellite will be able to talk back to us. Unlike other satellite operations for amateurs, where you can listen when you are aiming directly, we have been shouting towards the stars, and gotten data back hours later.”

So what is next step with voice command communications?

“As for the next step, we are also curious about what it will be,” added Hadland. “This experiment has been initiated by Georges Labrèche, whom together with Ólafur Waage, were the first to successfully run the game DOOM on the OPS-SAT back in 2023 (Not OPS-SAT PRETTY). Neither of them are radio amateurs, but are into the software development field.

Labrèche has suggested, as mentioned in our report at doom.lb6aj.net/#future, that a next step might be e.g., "PRETTY TURN OFF SDR" to act on an actual payload of the satellite, making it a control interface. But this might meet resistance from the team at ESA. We also have some other ideas regarding amateur radio, building further on this experiment, but we are not sure yet. But time will tell.”

The Project Page at partner Tanagra Space tells the whole story from end to end, with the postcard the satellite composed on board and the gameplay sequence it captured as it flew: tanagraspace.com/opssat-pretty-doomed.

Thanks to the Oslo Group of the Norwegian Radio Relay League for taking time to talk with the ARRL Letter about their accomplishments.

10-Year-Old Receives Ham License and More

A brand-new young ham in Arizona got more than he was expecting after passing his Technician class license exam earlier this month. Along with getting his call sign, KM7HFU, from the FCC, 10-year-old Reynaldo Mangual was presented by the Maricopa Amateur Radio Association (MARA) with an almost-new Yaesu FT-857D HF/VHF/UHF multimode transceiver, an LDG YT-100 automatic antenna tuner, and power supply. The station had been donated anonymously to the club with the stipulation that it be presented to a deserving young person upon successfully earning an amateur radio license. In addition the club reports that, in an effort to introduce him to Morse code, Reynaldo was also given a fully-restored World War II-era J-38 telegraph key by club member Steve Miller, W6DSM, who collects and restores historic keys.

Reynaldo joined ARRL this week! He is also a member of the Pinal County 4-H Amateur Radio Club, whose youth program is supported by 4-H, MARA, the Arizona 4-H Foundation, and a grant from the Amateur Radio Council of Arizona. Reynaldo is now MARA's youngest member. The Maricopa Amateur Radio Association is an ARRL-Affiliated Club.

Ten-year-old new ham Reynaldo Mangual, KM7HFU, is presented with his certificate of successful completion of the Technician exam by Maricopa Amateur Radio Club president and 4-H group leader Michael Mills, NO7S. [Photo courtesy Maricopa Amateur Radio Club]

The amateur radio operator speaking into the microphone in the evening pass is Jon Bergli Heier, LB9BJ. [Photo courtesy of Truls Johansen, LA7IJ]

ARRL offers a no-cost membership option for full-time students aged 21 years or younger. Free Student Membership is available at www.arrl.org/student.

ARISS Receives Challenger-7 Recognition

ARISS, Amateur Radio on the International Space Station, has been honored with the prestigious Challenger-7 Recognition, a national honor celebrating organizations whose work reflects the spirit, vision, and values of the seven crew members of the Space Shuttle Challenger mission STS-51-L.

“This recognition is a tribute, not a competition,” says the Challenger Center. “It honors those who embody the Challenger crew’s values of exploration, learning, and inspiration, while also celebrating trailblazing organizations and programs that will carry this mission forward into the future.”

Nominations from nonprofit STEM (Science, Technology, Engineering, and Math) programs that have a national-level impact on STEM learning and other STEM advocates were submitted by members of the broader Challenger Center community, with honorees selected by an appointed committee. The recognitions are part of the Challenger Center’s 40th anniversary celebrations.

“The ARISS team is humbled to receive the Challenger-7 recognition,” said ARISS-USA Executive Director and ARISS International Chair Frank Bauer, KA3HDO. “We thank the Challenger Center community for this honor as well as treasure our long-standing partnership with them. The outcomes of our ARISS on-board astronaut experiences emulate the exploration and education spirit of the Challenger crew—to engage and educate our next generation of explorers in STEM while giving them the tools and inspiration to prepare them for future STEM careers.”

Other awardees this year include AIAA – American Institute of Aeronautics and Astronautics, American Rocketry Challenge, and Janet’s Planet.

Entrepreneur and Amateur Radio Operator Invests in the Next Generation of Problem Solvers

ARRL announced today a historic and transformational \$1 million gift from Dr. James M. Galm, W8WTS. An entrepreneur and amateur radio operator who spent his career solving complex energy and engineering challenges, Galm is now investing in the next generation of problem solvers through his support of ARRL.

The gift will directly support ARRL programs and activities, including the ARRL STEM education initiative within the Education and Technology Program, and ARRL’s work defending access to amateur radio spectrum through the Spectrum Defense Fund. He didn’t stop there, however. Dr. Galm expressed how important ARRL is to the future of amateur radio by designating a significant portion of his gift as unrestricted support to the ARRL Diamond Club, which supports ARRL’s general fund, and the Second Century Fund, ARRL’s unrestricted endowment fund, which will be invested and support ARRL operations in perpetuity.

James M. Galm, Ph.D., W8WTS, is from Chardon, Ohio and is a 50-year ARRL member, a member of the ARRL Legacy Circle, and an accomplished amateur radio contester. He frequently operates from PJ2T and has served as President and Secretary/Treasurer of the Caribbean Contesting Consortium, PJ2T. He also operates a popular and reliable DX Cluster at dxc.w8wts.net with both ARC 6 and CC Cluster nodes.

Dr. James M. Galm, Ph.D., W8WTS

ARISS representatives Frank Bauer, KA3HDO (middle), and Jackie Blumer, KC9LEH (right), accepted the Challenger-7 Recognition from Challenger Center's Mike Kincaid (left) during the organization's 40th anniversary celebration. [Challenger Learning Center photo]

CLUB INFO**PUBLIC SERVICE****CLUB STATION**

The WARC club station is open to anyone with an interest, on the first Thursday of the month (meeting night) between the hours of 6:30 and 7:30 pm. with the exception of the December dinner meeting For further information, call George Brechmann N3HBT at 215-443-5656.

WARC ALUMNI MEMBERSHIP

An Alumni membership category is available for WARC members who are unable to attend meetings and club activities on a regular basis because of health considerations, travel impediments, or other hardships. Dues for the Alumni membership are \$12.50 annually and are approved by the Board. Please contact the Membership Committee for more information if interested."

ATTENTION MEMBERS

The Membership Committee can provide Club badges. Two types are available: an engraved plastic callsign and name badge for \$8 or a free, laminated plastic, photo ID badge/card. The photo id badge is included with your membership. Pictures for the club badge will be taken before club meetings on even numbered months. If you do not have at least a Warminster Amateur Radio Club badge with your picture on it, please contact your Membership Chairs at the WARC monthly meetings. Otherwise, please contact Membership by email at: membership@k3dn.org.

If you want to have your picture taken to be placed on the 'Members' Photos' section of the www.k3dn.org website, please contact Membership with your interest. When we get enough people who are interested we will post a notice in Feedback and have a camera ready at the following club meeting.

PROGRAMS 2026

September - DX Tony W3FLH

October - Monitoring the military DanK3NXX

November - D-Star Ray KA3TRU

The Club Station - K3DN - is located at the Benjamin Wilson Senior Center, Delmont Avenue, Warminster, PA. The station is open for club members and the interested general public on the first Thursday of the month (meeting night) between the hours of 6:30 and 7:30 pm. with the exception of the December dinner meeting . The station is fully operational on HF (80 meters through 10 meters) both phone and CW. There is an assortment of amateur radio shareware which may be copied under the shareware licensing agreement.

For additional information on the Club Station please call the Station Manager N3HBT - George at 215-443-5656.

➤ WARC Meetings are held the first Thursday of each month at 7:30 pm at the Benjamin Wilson Senior Center, Delmont Avenue, Warminster, PA. Talk in is available on the 147.09 & 443.950 repeaters.

SKYWARN INFORMATION

➤ CLUB EQUIPMENT

WARC has 2 Baofeng UV-5R dual band HT's and a Yaesu FT-2900 2M mobile that are available for use by members of the club. The radios are available on a month-by-month basis and have been purchased primarily to help new hams get on the air. However, they may also be used by any club member who is in need of a temporary 2-meter radio. They are also available for use by participants in WARC's public service activities.

The Warminster Amateur Radio Club Announces Free Ham Radio Instructional Classes

If you're interested in Ham Radio, or think you might be, this is your opportunity. Perhaps you'd like to learn about digital communications, VHF, UHF, satellite, or perhaps you'd rather sit down and chat with someone in South Africa, Russia, Great Britain or in the space station.

For further information contact George Brechmann, N3HBT at 215-443-5656.
